7. Adjournment
A meeting of the Committee on the Department of Public Works was held in Johnson Chambers, Braintree Town Hall, on Tuesday, August 13, 2019 at 7:00p.m.

There was a moment of silence for all those serving in our armed services, past and present, and the meeting was opened with the pledge of allegiance to the flag.

Councilor Charles Kokoros, Vice-Chairman was in the Chair.
Clerk of the Council, Susan Cimino conducted the roll call.

Present: Charles Kokoros, Vice-Chairman
Stephen O’Brien, member

Not Present: Thomas Whalen, Chairman

Also Present: Robert Campbell, Town Engineer
Ben Hulke, DPW
Mary Mulroney, National Grid representative

APPROVAL OF MINUTES
• July 16, 2019
  Motion: by Councilor O’Brien to Approve Minutes of July 16, 2019
  Second: by Councilor Kokoros
  Vote: For (2 – Kokoros, O’Brien), Against (0), Absent (1 - Whalen), Abstain (0)
NEW BUSINESS
• 19 023 National Grid Petition: Harbor Villa Avenue or take up any action relative thereto
  Discussion on this petition included this street is not under moratorium therefore the recommendation
  from DPW is the petition be granted.
  MOTION read by Councilor O’Brien for favorable recommendation to the full Council:

To Install and maintain approximately 475 feet of 2 inch gas main from Quincy Avenue northeasterly
to the end of the main at #37 Harbor Villa Avenue. Harbor Villa Avenue was shimmed and
micro-surfaced in 2010 and is not under moratorium. The DPW recommends that the permit be
granted with the normal conditions imposed by the DPW Highway Division plus staff
recommendations:

BELD: BELD also has a 13,800 volt underground system on Quincy Ave in sidewalk toward Harbor Villa
Ave.

DPW:
1. If sidewalk surfaces are disturbed the surface is to be replaced in kind, at ADA compliant slopes and
   for the full width of the sidewalk;
2. all matches with existing surfaces be smooth, safe, properly surfaced and satisfactory to the Town;
3. the work be coordinated with the abutters to ensure that the properties are accessible at all times,
   including ADA compliant pedestrian access;
4. the conduit be installed outside of the trenches of the water and sewer mains and other utilities in
   service and that the trench pavement not be left low for any length of time;
5. the DPW be notified when the construction conflicts with Town utilities so the resolution can be
   mutually agreeable;
6. as-built plans be prepared and submitted satisfactory to the Department of Public Works;
7. the construction portion of the permit period not exceed two months from the start of
   construction and that the entire permit period be set at one year beginning at the date of Council
   approval.

We also recommend that the following requirement be added to the permit, if it is to be granted:

“Neither National Grid nor any of its contractors is authorized to close any street or to close a direction
of travel to facilitate their work without authorization from the Director of the Department of Public
Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or
fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic
control signs and devices and the use of police officers for traffic control to safely guide traffic through
the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and police
officers (where needed) are properly in place in conformity with the written plan prepared by the
contractor’s engineer and approved by the DPW and Police Department.”

Motion: by Councilor O’Brien for Favorable Recommendation to the full Council with Staff
Recommendations.
Second: by Councilor Kokoros
Vote:   For (2 – Kokoros, O’Brien), Against (0), Absent (1 - Whalen), Abstain (0)
• **19 024 National Grid Petition: Hawthorn Road or take up any action relative thereto**

Discussion on this petition included this street is not under moratorium therefore the recommendation from DPW is the petition be granted.

MOTION read by Councilor O’Brien for favorable recommendation to the full Council:

**To Install and maintain approximately 1040 feet of 2 inch gas main from Washington Street southeasterly to the existing gas main in Home Park Road. with staff recommendations:**

**BELD:** BELD has no underground electric utility conflicts or special requirements within the proposed scope of work.

**DPW:** Hawthorn Road was milled and overlaid in 2008 and is not under moratorium. The DPW recommends that the permit be granted with the normal conditions imposed by the DPW Highway Division plus staff recommendations:

1. If sidewalk surfaces are disturbed the surface is to be replaced in kind, at ADA compliant slopes and for the full width of the sidewalk;
2. all matches with existing surfaces be smooth, safe, properly surfaced and satisfactory to the Town;
3. the work be coordinated with the abutters to ensure that the properties are accessible at all times, including ADA compliant pedestrian access;
4. the conduit be installed outside of the trenches of the water and sewer mains and other utilities in service and that the trench pavement not be left low for any length of time;
5. the DPW be notified when the construction conflicts with Town utilities so the resolution can be mutually agreeable;
6. as-built plans be prepared and submitted satisfactory to the Department of Public Works;
7. the construction portion of the permit period not exceed two months from the start of construction and that the entire permit period be set at one year beginning at the date of Council approval.

We also recommend that the following requirement be added to the permit, if it is to be granted:

“Neither National Grid nor any of its contractors is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. RE: Street Opening Petition, 19-026 Gardner Terrace

The DPW has reviewed the subject petition for the street opening location and has the following recommendations:

19-026 – Replace and maintain approximately 250 feet of 2 inch plastic gas main from the existing main on Washington Street to #22 Gardner Terrace. Gardner Terrace is not under the moratorium enacted by the Town in 2015. I would recommend that the petition for this road opening only be granted under the normal conditions imposed by the DPW Highway Division plus that:

1. If roadside surfaces are disturbed the surface is to be replaced in kind and in at least as good condition as before the work;
2. all matches with existing surfaces be smooth, safe, properly surfaced and satisfactory to the Town;
3. the work be coordinated with the abutters to ensure that the properties are accessible at all times, including ADA compliant pedestrian access;
4. the gas main be installed outside of the trenches of the water and sewer mains, storm drains and other utilities in service and that the trench pavement not be left low for any length of time;
5. the DPW be notified when the construction conflicts with Town utilities so the resolution can be mutually agreeable;
6. as-built plans be prepared and submitted satisfactory to the Department of Public Works;
7. the construction portion of the permit period not exceed two months from the start of construction and that the entire permit period be set at one year beginning at the date of Council approval.

We also recommend that the following requirement be added to the permit, if it is to be granted:
“Neither National Grid nor any contractor is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of trained traffic control personnel to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and traffic control officers (where needed) are properly in place in conformity with the written plan prepared by the contractor’s engineer and approved by the DPW and the Police Department.”

Bob Campbell
Town Engineer
PETITION OF NATIONAL GRID FOR GAS MAIN LOCATIONS

Town of Braintree / Town Council:

The National Grid hereby respectfully requests your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways and places of the Town of Braintree and of the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

To install and maintain approximately 250 feet more or less of 2 inch gas main in Gardner Ter., Braintree; from the existing 2 inch gas main at the intersection of Washington St. westerly to the end of main at house #19. All of which to replace and abandon the existing 1.5 inch gas main in Gardner Ter.

July 24, 2019

By: ____________________________
   Barbara H. Kelleher
   Permit Representative

Town of Braintree / Town Council:

IT IS HEREBY ORDERED that the locations of the mains of the National Grid for the transmission and distribution of gas in and under the public streets, lanes, highways and places of the Town of Braintree substantially as described in the petition date July 24, 2019 attached hereto and hereby made a part hereof; and of the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and/or accomplish the objects of said Company, and the digging up and opening the ground to lay or place same, are hereby consented to and approved.

The said National Grid shall comply with all applicable provisions of law and ordinances of the Town of Braintree applicable to the enjoyment of said locations and rights.

Date this _________________ day of ______________________, 20 ___.

I hereby certify that the foregoing order was duly adopted by the _________________ of the Town of ______________________, MA on the _________________ day of ______________________, 20 ___.

From: Bob Campbell
CC: Jim Arsenault, Ben Hulke
RE: Street Opening Petition, 19-027  Lawnview Dr  Pinecrest Rd

The DPW has reviewed the subject petition for the street opening location and has the following recommendations:

19-027 – Replace and maintain approximately 1405 feet of 2 inch plastic gas main from the existing main on Elm Street to the end at #121 Lawnview Drive and to replace and maintain135 feet of 2 inch plastic gas main from Lawnview Drive to # 9 Pinecrest Road. Both Lawnview Drive and Pinecrest Road are under the moratorium enacted by the Town in 2015 having been re-paved and microsurfaced in 2016. For longitudinal trenches in a road resurfaced as Lawnview Drive or Pinecrest Rd was the moratorium is 10 years. Road openings may be made after 2026 without waiving the ordinance. Since the street is under the moratorium, I recommend that the petition not be granted. However, if the Council finds extenuating circumstances and there is no viable option to meet the several users’ needs without excavating the recently resurfaced street, I would recommend that the petition for this road opening only be granted under the normal conditions imposed by the DPW Highway Division plus that:

1. after maintaining the temporary trench through one winter but within one year of placement of the temporary trench repair, the permanent repair be full-width mill and overlay of both Lawnview Drive and Pinecrest Road for the full length of the excavation;
2. If sidewalk surfaces are disturbed the surface is to be replaced in kind, at ADA compliant slopes and for the full width of the sidewalk;
3. all matches with existing surfaces be smooth, safe, properly surfaced and satisfactory to the Town;
4. the work be coordinated with the abutters to ensure that the properties are accessible at all times, including ADA compliant pedestrian access;
5. the gas main be installed outside of the trenches of the water and sewer mains and other utilities in service and that the trench pavement not be left low for any length of time;
6. the DPW be notified when the construction conflicts with Town utilities so the resolution can be mutually agreeable;
7. as-built plans be prepared and submitted satisfactory to the Department of Public Works;
8. the construction portion of the permit period not exceed two months from the start of construction and that the entire permit period be set at one year beginning at the date of Council approval.

We also recommend that the following requirement be added to the permit, if it is to be granted:

“Neither National Grid nor any contractor is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of trained traffic control personnel to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and traffic control officers (where needed) are properly in place in conformity with the written plan prepared by the contractor’s engineer and approved by the DPW and the Police Department.”

Bob Campbell
Town Engineer
PETITION OF NATIONAL GRID FOR GAS MAIN LOCATIONS

Town of Braintree / Town Council:

The National Grid hereby respectfully requests your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways and places of the Town of Braintree and of the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

To install and maintain approximately 1405 feet more or less of 2 inch gas main in Lawnview Dr., Braintree; from the existing 2 inch gas main at the intersection of Elm St. northerly to the end of main at house #127 and approximately 135 feet more or less of 2 inch gas main in Pinecrest Rd. from the new 2 inch gas main in Lawnview Dr. to the end of main at house #9. All of which to replace and abandon the existing 2 inch and 1.5 inch gas mains in Lawnview Dr. and the 1.5 inch gas main in Pinecrest Rd.

July 24, 2019

By: Barbara H. Kelleher
Permit Representative

Town of Braintree / Town Council:

IT IS HEREBY ORDERED that the locations of the mains of the National Grid for the transmission and distribution of gas in and under the public streets, lanes, highways and places of the Town of Braintree substantially as described in the petition date July 24, 2019 attached hereto and hereby made a part hereof; and of the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and/or accomplish the objects of said Company, and the digging up and opening the ground to lay or place same, are hereby consented to and approved.

The said National Grid shall comply with all applicable provisions of law and ordinances of the Town of Braintree applicable to the enjoyment of said locations and rights.

Date this ______________ day of ____________________, 20__.

I hereby certify that the foregoing order was duly adopted by the ____________________ of the Town of ____________________, MA on the ______ day of ____________________, 20__.

**Parcel Count:** 52

**End of Report**
As part of the FY19/20 BSMNRPL program, Main and Service Replacement recommends the relay of:
- aprx 945 feet of 2 inch 60 psig bare steel (1946) and 580 feet of 1.5 inch 60 psig coated steel (1956) (NBRA0000) with aprx 1405 feet of 2 inch, 60 psig plastic in Lawnview Dr from Elm St to the end of main at #121 Lawnview Dr.
- aprx 135 feet of 1.5 inch 60 psig coated steel (1950) (NBRA0000) with aprx 135 feet of 2 inch, 60 psig plastic in Pinecrest Rd from Lawnview Dr to the end of main at #9 Pinecrest Rd.

The objects shown are not warranted to be correct.
- Pressure gauges are required at all mains for all tie-ins. Refer to GCON-02001 procedure.
- Check electronic mapping system for most current mapping information.

As part of the FY19/20 BSMRIP program, Main and Service Replacement recommends the relay of:
- ~aprox 1405 feet of 2 inch 60 psig coated steel (1950) (NBRA0000) with approx 1210 feet of 2 inch, 60 psig plastic in Lawnview Dr from Elm St to the end of main at #121 Lawnview Dr.
- ~aprox 135 feet of 1.5 inch 60 psig coated steel (1950) (NBRA0000) with approx 1405 feet of 2 inch, 60 psig plastic in Pinecrest Rd from Lawnview Dr to the end of main at #9 Pinecrest Rd.

Pressure gauges are required at all mains for all tie-ins. Refer to GCON-02001 procedure.
Memo

Date: August 28, 2019
To: Susan M. Cimino, Clerk of the Council
From: Bob Campbell
CC: Jim Arsenault, Ben Hulke
RE: Street Opening Petition, 19-028 Plymouth Rd

The DPW has reviewed the subject petition for the street opening location and has the following recommendations:

19-028 – Replace and maintain approximately 290 feet of 2 inch plastic gas main from the existing main on Washington Street to #22 Plymouth Road. Plymouth Road was totally reconstructed in 2014 and so is not under the moratorium enacted by the Town in 2015, but it remains in very good condition. It is noteworthy that the existing and proposed mains do not extend to the last three houses on the street. If it has not already occurred, those residents should be contacted by National Grid in an attempt to accomplish all work needed out there at the same time. I would recommend that the petition for this road opening only be granted under the normal conditions imposed by the DPW Highway Division plus that:

1. If roadside surfaces are disturbed the surface is to be replaced in kind and in at least as good condition as before the work;
2. all matches with existing surfaces be smooth, safe, properly surfaced and satisfactory to the Town;
3. the work be coordinated with the abutters to ensure that the properties are accessible at all times, including ADA compliant pedestrian access;
4. the gas main be installed outside of the trenches of the water and sewer mains, storm drains and other utilities in service and that the trench pavement not be left low for any length of time;
5. the DPW be notified when the construction conflicts with Town utilities so the resolution can be mutually agreeable;
6. as-built plans be prepared and submitted satisfactory to the Department of Public Works;
7. the construction portion of the permit period not exceed two months from the start of construction and that the entire permit period be set at one year beginning at the date of Council approval.
We also recommend that the following requirement be added to the permit, if it is to be granted:

“Neither National Grid nor any contractor is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of trained traffic control personnel to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and traffic control officers (where needed) are properly in place in conformity with the written plan prepared by the contractor’s engineer and approved by the DPW and the Police Department.”

Bob Campbell
Town Engineer
PETITION OF NATIONAL GRID FOR GAS MAIN LOCATIONS

Town of Braintree / Town Council:

The Nationalgrid hereby respectfully requests your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways and places of the Town of Braintree and of the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

To install and maintain approximately 290 feet more or less of 2 inch gas main in Plymouth Rd., Braintree; from the existing 2 inch gas main at the intersection of Washington St. westerly to the end of main at house #22. All of which to replace and abandon the existing 1.5 inch and 2 inch gas main in Plymouth Rd.

July 24, 2019

By:  
Barbara H. Kelleher
Permit Representative

Town of Braintree / Town Council:

IT IS HEREBY ORDERED that the locations of the mains of the Nationalgrid for the transmission and distribution of gas in and under the public streets, lanes, highways and places of the Town of Braintree substantially as described in the petition date July 24, 2019 attached hereto and hereby made a part hereof, and of the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and/or accomplish the objects of said Company, and the digging up and opening the ground to lay or place same, are hereby consented to and approved.

The said Nationalgrid shall comply with all applicable provisions of law and ordinances of the Town of Braintree applicable to the enjoyment of said locations and rights.

Date this ______________ day of __________________, 20__.

I hereby certify that the foregoing order was duly adopted by the ______________ of the Town of __________________, MA on the __________ day of ______________, 20__.

By: ____________________________

End of Report
ENGINEERING DESIGN - Proposed Scope of Work

10-22 PLYMOUTH RD, BRA

As part of the FY19/20 BSMNRPL Program, Main and Service Replacement recommends the relay of:
- aprx 265 feet of 1.5 inch, 60 psig bare steel (1948) and aprx 25 feet of 2 inch, 60 psig plastic (1979) with 290 feet of 2 inch plastic in Plymouth Rd from the ext 2 inch plastic at Washington St to the end of main at #22 Plymouth Rd.

Pressures are listed at 1 in. HDPE lap joint. All lines have lap joint connections ( HDPE lap joint) with 2 inch plastic. Steel line pressures are max 80 psi at 2 inch, 30 psi max at 1.5 inch.

NOTE: The location of surface and underground objects shown are not warranted to be correct.
August 2, 2019

Town of Braintree
Ms. Susan M. Cimino
Clerk of the Council
One JFK Memorial Drive
Braintree, MA 02184

Dear Ms. Cimino:

Please see the below comments for the National Grid Petitions.

19 026 Gardner Terrace: BELD no conflicts.

19 027 Lawnview Drive/Pinecrest Road: Please see note below.

19 028 Plymouth Road: BELD no conflicts.

Please note: BELD has an 115,000 volt oil filled transmission line located on Elm Street. BELD Engineering should be notified in advance of any excavation to be performed in close proximity to this line. BELD will provide onsite support and safety personnel at no cost to the project. BELD also has a 13,800 volt underground system on Elm Street. This is a concrete encased duct bank to be identified through the Dig safe process.

The proposed plan and scope of work does not impact existing BELD electric or communication utilities within this site. Please submit all of the proposed plans and final “as built” drawings to this department on AutoCAD format where available.

The Engineering Department has no objection for approval being granted to this permit.

Sincerely,

Darron MacDonald
Field Engineer
Office: 781.348-1072
Cell: 339-235-6450

Your hometown electric and broadband department
Memo

Date: August 16, 2018
To: Susan M. Cimino, Clerk of the Council
From: Bob Campbell
CC: Jim Arsenault, Ben Hulke
RE: Developer Street Opening Petition, 40 Bowditch Street

The DPW has considered the request for the street opening at 40 Bowditch Street and has the following comments / recommendations:

19-0?? #40 Bowditch Street, Developer request to install a gas service lateral in Bowditch Street to service future house number 40. First of all, no street number has been assigned yet to the subject parcel. An application for street number assignment is attached. These recommendations will refer to the parcel as “40 Bowditch Street.”

Bowditch Street is under the moratorium enacted by the Town in 2015 having been repaved and micro-surfaced in 2015. For transverse trenches in a road resurfaced as Bowditch Street was, the moratorium is 5 years. Road openings may be made after 2020 without waiving the ordinance. Since the street is under the moratorium, the DPW recommends that the petition not be granted. However, if the Council finds circumstances warranting approval, and since the street is almost out of moratorium, we’d would recommend that the petition for this road opening only be granted conditioned upon the contractor 1.) not leaving the trench pavement low for any length of time; 2.) after maintaining a bituminous concrete temporary trench repair through one full winter but within one year of the temporary trench repair, mill and overlay the full width of the street for the full width of the excavated trench plus 5 feet each side (repair would end up being approximately 13 feet wide by the width of the road, about 22 feet); 3.) repair or replace curbs / berms / sidewalk areas disturbed and retain drainage flow patterns all to the satisfaction of the Highway Superintendent; 4.) provide for infrared treatment of seams at the discretion of the Highway Superintendent and 5.) that surety in the amount of not less than $1000 be put in place to guarantee the satisfactory completion of the repairs.

The DPW also recommends that the following requirement be added to the permit, it is to be granted:
“Neither National Grid nor any contractor is authorized to close any street or to close a
direction of travel to facilitate their work without authorization from the Director of the
Department of Public Works or the Highway Superintendent. The Chief of Police can also
authorize a closure for a police or fire emergency. Construction zone traffic safety issues are
to be addressed by using appropriate traffic control signs and devices and the use of police
officers for traffic control to safely guide traffic through the work zone. If a closure is
authorized by the DPW, it shall not be implemented until signs and police officers (where
needed) are properly in place in conformity with the written plan prepared by the contractor’s
engineer and approved by the DPW and Police Department.”

Bob Campbell
Town Engineer
## Application for Street Number

Per USPS, one street number will be assigned per building. Units within each building will be assigned Unit Numbers if so desired.

Tenants of buildings may only apply for address / change of address through the building owner.

Many entities and documents are affected by changes of address. The applicant is responsible for all updates to those entities and documents. The Town shall not be held liable.
